

## Tackler Gun

### DESCRIPTION:

Erosion control products such as Jute and Coir matting are invaluable for stabilising newly planted terrain. Now you can be sure you'll fix it into place right the first time, every time with the lightweight and effective TACKLER.

This is the lightest wire staple gun available and is height adjustable with a foot press that makes fast, light work of affixing erosion control products without breaking your back.

With 300 pins for every 100 metres, the Tackler Gun will save you time and money.

## Steel Fastening Pins

### FEATURES / BENEFITS:

- Used for securing matting, the base of fencing, and bird netting to prevent movement
- Longer pins are required for soft ground or steeper slopes
- Made from steel with sharpened ends for easy penetration

### Tips

Pins are installed using a rubber mallet.

Use 150mm pins for flat hard ground, 200mm pins for hilly, undulating ground, 300mm pins for steep and soft ground.

### SPECIFICATIONS (LENGTH X WIDTH X GAUGE):

150mm x 30mm x 4mm	500 per box
200mm x 35mm x 4mm	150 per box
300mm x 50mm x 5mm	150 per box
